SUMMARY

Product Manager with end-to-end ownership of SaaS platform development, client negotiations, and cross-platform integrations. Expert in translating user and business needs into structured specifications, aligning engineering with operational constraints, and managing third-party providers including hosting and payment solutions. I think holistically about products and organisational impact and am structured and detail-oriented with a strong sense of accountability. I drive prioritization and alignment across technical, design, partner, and business stakeholders, and proactively seek continuous improvement in both the product and myself

Awards

Social Impact Award, POPRI award, Rector's Award, Falling Walls, Launchpad IH, One Digital Award Hungary, Tedx Speaker

EXPERIENCE

Product Manager - Institute Greenie (software) 2023 - 2025

- Ran expert level product discovery across 2 countries (8 focus groups, 200+ survey responses, 30+ client semi-structured interviews, field feedback, 25+ nationalities); validated product-market fit with qualitative and quantitative analysis, created software products in full based on data-driven insights.
- Led end-to-end creation and launch of a cross-platform civic engagement SaaS (B2B + B2C);
- Built and managed a 7-person international team (5 nationalities, 4 countries) across Dev, UX, Outreach, and Marketing; delivered MVP 100% remotely in 5 months.
- Delivered 3 tested and improved product iterations, boosting several KPIs with each iteration
- Translated client insights into Jira epics, users stories, and acceptance criteria; led bi-weekly prioritization; prioritized backlog bi-weekly based on impact vs. dev effort. streamlining dev and reducing churn. 2-3 sprints in ready to develop backlog, which improved planning resourcing needs.
- Scoped and shipped first MVP under 6-month deadline and tight budget, cutting 30% of features while preserving core value.
- Aligned UX with dev feasibility, reducing complexity and rework.
- Ran agile processes (sprint planning, reviews, QA), cutting critical bugs between sprints.
- Secured €35,000+ in public funding/donations/awards from pitching to technical and non-technical audiences and stakeholders
- Demonstrated ability to manage external partners - Greenpeace Slovenia, Red Cross Slovenia, EUSA

Behavior Analysts (contract) - University of Ljubljana 2024

- Evaluating effectiveness of United Nations' videos on changes in behavior and intentions
- Sentiment Analysis, Panel Analysis, Factor Analysis, Segmentation, Regression Analysis, Valence Analysis, Emotion Analysis, Word Clouds
